

Bonus Insulated Protection Cover (Optional Extra)

Packaged in a sturdy transportable bag, chilled goods are protected even if power is unavailable at short notice.

Access to the contents is easy thanks to Velcro fasteners.

Even when packaged, full operation of the cooler is guaranteed via visible display control and App.

The bags are available for most box sizes.

The pockets on the covers are very practical for cutlery, tools and the other little things that are helpful on the road or at sea.

*Revolutionary cooling
that stays colder and
lasts longer. No matter
where adventure
takes you.*

Powerful, robust and ready for any adventure, myCOOLMAN® fridges and freezers bring freshness to the New Zealand bush and sea. Designed and engineered in Germany to suit the demanding New Zealand conditions, myCOOLMAN® offers versatility with a range of practical features and sophisticated technology for everyone who loves life off the beaten track.

Ranging in sizes from 9.5 to 105 litres with single and dual zone models, cooling and freezing food of all kinds is a breeze with reliability down to minus 18 degrees.
