

HYDRONIC SERIES Air Heating

AUTOTERM Liquid Heaters are commonly known as hydronic heaters. These are independent diesel-powered heating systems that can be easily and conveniently installed or retrofitted in your vehicle. Usually, the heater is linked with the vehicle's coolant system or (in the case of boats, campers) the central heating system.

These heaters are specifically designed to pre-heat the vehicle's engine and compartments, thus eliminating cold start of the engine, and supplying comfortable warm air to passenger compartments in cold conditions. **AUTOTERM**

liquid heaters are equipped with brushless induction motors that ensure low noise levels as well as a long lifetime for your device, and the capability to operate in extreme environments and temperatures as low as -45°C.

Model:	Flow 5D
Voltage	12/24V
Heating medium	Coolant (Antifreeze)
Coolant liquid flow rate	800 - 1200 L/H
Heating power	5KW
Power consumption	42W
Power consumption to start	120W

Product Code:	RVD558
Max. work altitude (MASL)	1000M
Fuel	Diesel
Fuel consumption	0,62 L/H max
Control mode	Manual
Weight of heater	2.4Kg
Heater dimensions	220 x x900 x 136mm

These heaters can also be used to heat central heating systems with radiators and boilers, devices commonly found in campers or boats/yachts.

Autoterm Marine series heaters

EXCLUSIVE NZ IMPORTER, DISTRIBUTORS
 & SPARE PARTS STOCKIST

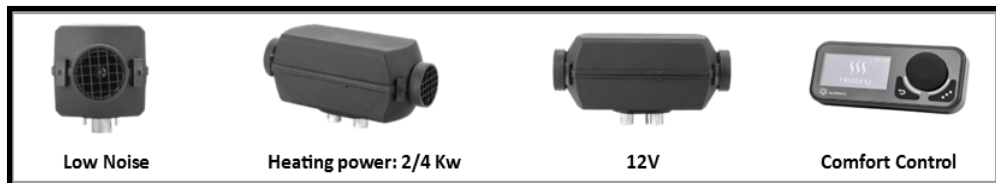

AIR SERIES Air Heating

With its compact design, **AUTOTERM** Air Series heaters can be easily installed or retrofitted in almost any RV, caravan, boat or transport vehicle and is supplied with a full installation kit. Ducting accessories are also sold separately to suit your installation requirements.

The heater's maximum power output of 2/4Kw combined with high volume air flow can maintain your desired room temperature with ease.

Already reasonably priced, the **AUTOTERM** has low running costs due to its excellent fuel economy consuming only 0.24 litres of diesel fuel per hour at maximum power (2Kw). Air series heaters are equipped with brushless induction blower motors that ensure low noise levels as well as a long lifetime for the device.

RV & Marine Supplies Ltd are the New Zealand distributors for the **AUTOTERM** range and provide nationwide warranty and spare parts support.

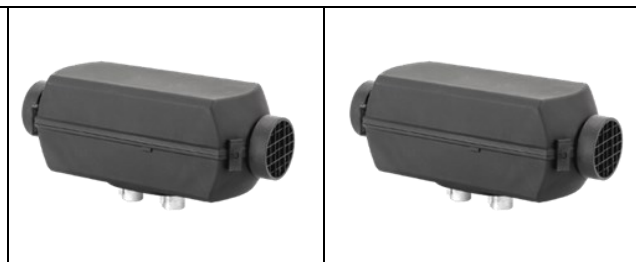

2 year standard warranty - 3 year warranty if installed by an approved technician.
