

Heavy Duty 1200A & 1700A Jump Starter

Starts cars, trucks, RV's and boats without the need of a host vehicle.

| | |
|---|--|
| Part Number: | APS1200A |
| Battery Type | Special design fast output AGM battery |
| Output current | 250Amp/ over 9 volt |
| Continuous current | 200Amp |
| Cable Size(AWG) | 8 |
| Safety main switch | yes |
| Charger Type | 0.8A Three stage |
| USB output | 5V/2.4A |
| LED emergency light | yes |
| Charging status indicator | yes |
| Low voltage warning | yes |
| Short circuit, reverse connection, connect to 24V battery | protected |
| Inbuilt protection system | yes |
| Net Weight | 3.3Kg |
| Cable of length | 38cm |

|---|--|
| Part Number: | APS1700A |
| Battery Type | Special design fast output AGM battery |
| Output current | 420Amp/ over 9 volt |
| Continuous current | 300Amp |
| Cable Size(AWG) | 7 |
| Safety main switch | yes |
| Charger Type | 0.8A Three stage |
| USB output | 5V/2.4A |
| LED emergency light | yes |
| Charging status indicator | yes |
| Low voltage warning | yes |
| Short circuit, reverse connection, connect to 24V battery | protected |
| Inbuilt protection system | yes |
| Net Weight | 6.1Kg |
| Cable of length | 45cm |

Features:

- Unique design high output sealed AGM rechargeable battery, can be stored or inverted without risk of leaking acid.
- Fully insulated 100% copper leads.
- Suitable to jump start a host of vehicles without the need of a second vehicle – **12 Volt Systems ONLY**
- Safe and easy portability, mini powerful and lightweight design.
- Inbuilt spark and surge protection.
- Built in extra bright, low current LED emergency light
- Low capacity warning beeping and red LED light indicates unit requires charging (when main switch is turned on)
- Inbuilt safety systems for over load, reverse polarity, 24V battery connection and accidental short circuit (when unit main switch is ON)
- Built in 5V/2.4A USB socket for powering or recharging USB devices.
- Illuminated main power switch for ease of use.
